

### Inspector's Note to JVH Planning – 18.1.17

Thank you for your e-mail which I received yesterday. I have raised your concerns about the updated housing land supply information with the Council. The Council comments, in summary, that the new evidence represents its response to the suite of documentation that you submitted to the examination in respect of an ongoing appeal. While the receipt of late information from any party is not ideal, I have taken a pragmatic approach to its acceptance given that the hearings themselves have been delayed. Therefore, in respect of your specific queries, I can advise that (1) the updated information will be before the examination and (2) that I am happy to accept comments from any representor about its contents either in writing (although please note that for practical reasons this would need to be with the PO by 5pm on Thursday 26 January 2016) or orally at the hearing.

Michael J Hetherington – Inspector
